

 blustream®

PROTECT WHAT YOU LOVE.

GETTING STARTED

Make sure Bluetooth® is turned ON and you have an internet connection.

For Android devices turn Location Services ON

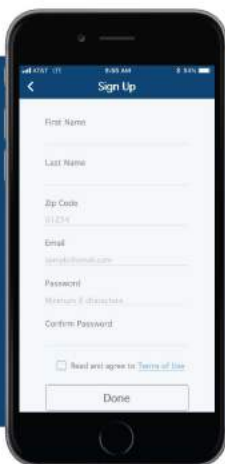

Download the Blustream App
app.blustream.io

Download on the
App Store

GET IT ON
Google Play

Open the Blustream App, select Sign Up from the login page, fill out the required information then tap Done.

LINKING MY SENSOR

LINKING MY SENSOR

Open the Blustream App and then from the My Valuables screen tap the + button

When prompted, remove the plastic pull tab from the sensor, confirm the LED blinks 4 times and follow the on-screen instructions.

If the tab was previously removed, remove the battery and re-insert it with the + side up.

When the linking process completes, tap Connected, enter the requested information in the Add New Valuable screen, then tap Done.

REMOTE MONITORING

REMOTE MONITORING

You can remotely monitor your valuables 24/7, using a second compatible tablet or phone.

With your second device, make sure Bluetooth is turned ON and you have an internet connection.

For Android devices turn Location Services ON

Download the Blustream App
app.blustream.io

Download on the
App Store

GET IT ON
Google Play

REMOTE MONITORING

REMOTE MONITORING CONT.

Open the Blustream App and login using the same email and password used to setup the account.

Turn Bluetooth temporarily OFF on your primary phone.

On your second device, open the My Valuables screen and wait for the Bluetooth icon to appear in the upper right hand corner for your sensor.

Plug your second device into a power source and leave it within Bluetooth range of your sensor.

You can now check your data and receive notifications anytime your primary phone has an internet connection.
